Bachelor's Degree Program Technical Management

Specialization: *Health Services Management*

ABOUT THIS SPECIALIZATION

DeVry University's Bachelor's degree in Technical Management can help prepare you for the workplace with a solid business foundation. Our specialization in Health Services Management can further focus your studies and help equip you for the career you want to pursue.

The Health Services Management specialization at DeVry University will help you to understand the political, social, cultural, economic and technical influences that have shaped our healthcare system today. The areas of health services management range from patient records management and insurance claims and billing to healthcare financing including managing costs and expenditures.

As a graduate, you may manage operations in a specific healthcare department or you may be a generalist working across an entire hospital or healthcare system. You may perform tasks such as: developing reports and budgets, reviewing, selecting and implementing systems for billing, patient records and other data.

Graduates of DeVry University's Technical Management program with a specialization in Health Services Management may consider careers including:

- Health Facility Manager
- Managed Care Coordinator
- Management Consultant
- Manager of Provider Networks
- Medical/Health Services Manager
- Medical Computer Salesperson
- Medical Office Supervisor
- Patient Accounting and Billing Systems Manager
- Patient Account Manager

According to the Bureau of Labor Statistics, employment of medical and health services managers is expected to grow by 16 percent between 2008 and 2018, faster than the average for all occupations. According to their *Occupational Outlook Handbook*, "the healthcare industry will continue to expand and diversify, requiring managers to help ensure smooth business operations."¹
