ABOUT THIS DEGREE PROGRAM

The Master of Project Management program is designed to prepare students with the skills to solve real-world management problems, and to exercise sound management judgment through practical application of PM concepts to be effective project managers. The coursework addresses cost management, quality control, planning and improvement. Assignments and projects focus on organizing, implementing and controlling business activities; achieving schedule, budget and performance objectives; and planning, budgeting and controlling multi-project applications that may involve legal and ethical issues, conflict resolution and application of project software. The program also provides business management courses in key areas such as accounting and finance, marketing and applied statistics.

The MPM program requires successful completion of 39 semester-credit hours. Total program length varies based on the number of courses taken per eight-week session.
