

BUSINESS ADMINISTRATION (MBA) PATHWAYS

Concentration: Global Supply Chain Management

ABOUT THE MBA PATHWAYS

DeVry offers two distinct MBA pathways to suit your career goals:

STANDARD MBA:

Our MBA program equips you with critical skills in strategic thinking, problem-solving, and adaptability to help you succeed in today's competitive business world. With a flexible format, you can tailor your studies around your career goals.

LEADERSHIP MBA:

The Leadership MBA is designed to prepare you to stand out in leadership roles within your organization by focusing on advanced leadership strategies, strategic decision-making, and organizational growth. It includes a *Leadership Graduate Certificate*, allowing you to earn a specialized credential while completing your MBA.

CAREER OPPORTUNITIES

Graduates of DeVry University's Keller Graduate School of Management MBA with a concentration in Global Supply Chain Management program may consider, but are not limited to the following careers:

- Supply Chain Manager
- Purchasing Supervisor
- Logistics Operations Manager
- Procurement Manager
- Material Requirements Planning Manager

WHAT YOU'LL LEARN

CORE MBA

- Develop and demonstrate professional communication skills and tools to support business needs.
- Demonstrate collaborative skills with diverse populations in multiple settings.
- Build the knowledge required to implement innovative approaches to solve specialized business problems.
- Apply analytical tools and technology applications to develop solutions to address the needs of an organization and its stakeholders.
- Demonstrate in-depth knowledge of enterprise-wide functions relevant in the global economy

CONCENTRATION

- Evaluate and select an appropriate supply chain transportation strategy based upon factors such as product characteristics, cost, packaging and speed of delivery.
- Demonstrate the benefits of key design features including supply chain member collaboration, synchronization and operational transparency to help mitigate supply chain dysfunction.
- Assess the probability and impact of potential supply chain risks and develop appropriate risk mitigation strategies.
