Bachelor’s Degree Program

TECHNICAL MANAGEMENT

Specialization: Human Resource Management

ABOUT THIS DEGREE PROGRAM

For those with prior college education or professional experience, the bachelor’s degree completion program in Technical Management at DeVry University can help you develop the management skills needed to work in many business areas and industries, such as accounting, project management, entrepreneurship, marketing, and human resources. With previously earned qualifying college credits, you may be able to earn your bachelor’s degree in less time.

Our Technical Management degree program is designed to prepare students to meet the challenges of a high-tech, global marketplace by bringing the real world into the classroom. Through experiential projects, you can develop the skills and business acumen needed in today’s business world.

If you have prior work or educational experience, you may also want to consider our Management degree program, which is available with many of the same specializations.

Through our TechPath approach, we’ve put technology at the core of our programs in business, tech and health – including this program. Every TechPath class you take revolves around a unique learning rubric developed at DeVry. We call it People-Process-Data-Devices or P2D2. You’ll gain real skills in collaboration, be able to adapt to new structures, and be comfortable working with data and a wide spectrum of tech-forward tools. P2D2 is a key component of what makes TechPath a smart, new way of getting the knowledge you need to be ready to hit the ground running in the way successful companies work today.

DeVry University's bachelor's degree program in Technical Management can help prepare you for the workplace with a solid business foundation. Our specialization in Human Resource Management can further focus your studies.

Human resource management focuses on an organization's most precious asset: the people who, individually and collectively, are responsible for its success. Human resource managers play an important role in helping to plan and direct hiring practices, employee benefits and relations programs, and training and development.

Our Human Resource Management specialization can help you learn about designing pay structures, developing employee policies, communicating employee benefits, selecting payroll systems and working with the executive team to develop hiring and employment goals.

Graduates of DeVry University's Technical Management program with a specialization in Human Resource Management may consider careers including, but not limited to, the following:

- Administrative Assistant
- Administrative Services Manager
- Employee Benefits Specialist
- Employee Relations Manager
- Human Resource Generalist
- Human Resource Information Systems Specialist
- Management Analyst/Consultant
- Training and Development Manager

Employment in some occupations may require years of relevant experience.

**DID YOU KNOW?**

DeVry University's Bachelor of Science in Technical Management program has achieved voluntary accreditation from the Accreditation Council for Business Schools and Programs (ACSBP) www.acbsp.org, demonstrating that it has met the standards of business education that promote teaching excellence.

**DID YOU KNOW?**

The Society for Human Resource Management (SHRM) has acknowledged that DeVry University's Business Administration degree program with the Human Resource Management specialization fully aligns with SHRM's HR Curriculum Guidebook and Templates. More information about SHRM is available via www.shrm.org.
