COLLEGE OF
BUSINESS & MANAGEMENT

Bachelor’s Degree Program
MANAGEMENT
Specialization: Business Intelligence and Analytics Management

ABOUT THIS DEGREE PROGRAM

The bachelor’s degree in Management at DeVry University can help you develop the management skills needed to work in many business areas and industries, such as accounting, project management, entrepreneurship, marketing, and human resources. If you’re currently employed, this can be a great way to further develop your management skills.

Our Management degree program is designed to prepare students to meet the challenges of a high-tech, global marketplace by bringing the real world into the classroom. Through experiential projects, you can develop the skills and business acumen needed in today’s business world.

This program is designed to accommodate students with a wide range of experiences, including those with little or no prior college education or work experience. If you have prior work or educational experience, you may also want to consider our Technical Management degree program which is available with many of the same specializations.

SPECIALIZATION: BUSINESS INTELLIGENCE AND ANALYTICS MANAGEMENT

ABOUT THIS SPECIALIZATION

DeVry University’s bachelor’s degree program in Management can help prepare you for the workplace with a solid business foundation. Our specialization in Business Intelligence and Analytics Management can further focus your studies.

Businesses rely on data to drive strategies for improving their revenue growth, increasing their profitability and boosting their competitive advantage. Their ability to collect data on customers, suppliers, competitors and inventory is growing by the day — but the volume and complexity of the information they gather is increasing, too. Business intelligence and analytics management is the science of processing business data, identifying patterns and correlations, and using that information to develop insights and strategic direction.

In our Business Intelligence and Analytics Management specialization, you can learn about a range of analytical tools and how to apply them. The curriculum will immerse you in the essential aspects of the field, including applications, databases and data modeling, as well as related topics such as accounting, electronic business management and e-commerce.

Graduates of DeVry University’s Management program with a specialization in Business Intelligence and Analytics Management may consider careers including, but not limited to, the following:

• Business Analysis Manager
• Business Analyst
• Business Intelligence Administrator
• Business Intelligence Analyst
• Business Intelligence Developer
• Business Intelligence Manager
• Financial Analyst
• Marketing Analyst

Employment in some occupations may require years of relevant experience.

KNOWLEDGE AND SKILLS

ANALYSIS AND EXECUTION — Understand how to interpret business needs to choose applications and define operational requirements.

TECHNICAL SKILLS — Explore ways to use software packages to analyze financial data, see trends, create portfolios and make forecasts.

ADMINISTRATION AND MANAGEMENT — Understand business and management principles involved in strategic planning, resource allocation, production methods and coordination of people and resources.

CRITICAL THINKING — Use logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.

JUDGMENT AND DECISION MAKING — Consider the relative costs and benefits of potential actions to choose the most appropriate one.

COMPLEX PROBLEM SOLVING — Identify complex problems and review related information to develop and evaluate options, and implement solutions.
