2+8 YEARS MONTHS MINIMUM LENGTH TO GRADUATION

COLLEGE OF LIBERAL ARTS & SCIENCES

The Justice Administration program provides students with a background in various aspects of the criminal justice system, and prepares them to adapt to change in this dynamic field. The program is designed to meet the educational needs of individuals seeking to begin careers in criminal justice, as well as those currently working in the field or with related experience. Our curriculum is developed with input from industry and education leaders across the country. Coursework is intended to augment government-required training programs.

Our Justice Administration degree program allows you to select a specialization that will focus your education on your specific goals.

Specializations offered within the Justice Administration degree program:
- Digital Forensics
- Homeland Security Studies
- Policing

Justice Administration Foundation
JADM100 Introduction to Criminal Justice
JADM110 Introduction to Criminology
JADM120 Introduction to Policing
JADM1200 Introduction to Criminal Law
JADM1210 Introduction to Corrections

JADM310 Drugs and Society
JADM320 Criminal Procedure
JADM330 Victimology
JADM340 Criminal Evidence
JADM350 Research Methods in Criminal Justice

Senior Project
JADM490 Senior Project I
JADM494 Senior Project II

Programs, course requirements and availability vary by location. Some courses may be available online only. All students enrolled in site-based programs will be required to take some coursework online and, for some programs and locations, a substantial portion of the program may be required to be completed online. DeVry’s academic catalog, available via devry.edu/catalogs, contains the most current and detailed program information, including admission, progression and graduation requirements. Information contained herein is effective as of date of publishing.
Digital forensics professionals help track criminals and solve crimes. They collect, identify, classify and analyze digital evidence related to criminal investigations. As a student, you can explore the diverse nature of computer crimes, as well as the laws and principles that govern electronic information.

Typical tasks of forensic professionals include: acquiring, investigating and reporting on electronic evidence in criminal cases; uncovering the data that resides in computer systems; and recovering deleted, encrypted or damaged file information. They may use analytical or scientific software to analyze evidence and may be called on to testify in court.

Graduates of DeVry University's Justice Administration degree program with a specialization in Digital Forensics may consider careers including, but not limited to, the following:

- Police Officer
- Forensics & Electronic Discovery Manager
- Private Investigator

Applicants for jobs in the criminal justice field may be subject to pre-employment screenings such as, but not limited to, criminal background checks, drug and/or alcohol testing, physical and/or psychological examinations and credit checks. Unsatisfactory screening results may disqualify an applicant for a position in the criminal justice field.

Additional government-required training programs or years of relevant experience may be necessary to obtain employment in this field.
