	Part-Time	1,456	399	579	478	55%	33%

Notes:

Reporting periods are fiscal years running from July 1 - June 30.

Attendance is based on student's enrollment status during their first semester for each reporting period

Retention rate is calculated as the percentage of students who were enrolled in the same program/concentration at the end of year that did not graduate.

Graduation Rates are based on tracking cohorts of students through 150% of normal time to completion. Students are only counted if their first degree seeking enrollment at the student level/institution occurred in a reported program/concentration. Students must complete the same program/concentration to be counted.

**No students available in cohort
