1 Most State boards of accountancy require 150 credit hours of post-secondary education in order to sit for the CPA exam. As this program is less than 150 credit hours, the program alone does not meet the minimum coursework requirements to sit for the CPA exam. Students interested in sitting for the CPA exam should check their state’s requirements. Credits and degrees earned from this institution do not automatically qualify the holder to participate in professional licensing exams to practice certain professions. Persons interested in practicing a regulated profession must contact the appropriate state regulatory agency for their field of interest. DeVry is not able to recommend graduates for professional licensure in any state.

2 Growth projected on a national level. Local growth may vary.

3 Not including breaks. Assumes year-round, full-time enrollment. Additional program information may be found at https://www.devry.edu/online-programs.htm.
