ACCOUNTING

ABOUT THIS DEGREE PROGRAM

Accounting is the language of business, vital to understanding and communicating critical financial information, such as profits and losses, assets and liabilities, and cash flow. Earning a bachelor's degree in Accounting at DeVry University can help you develop the accounting skills needed to work in many business areas and industries, such as finance, management, entertainment, operations management or forensic accounting.

DeVry University's Bachelor's in Accounting degree program can help prepare you for the workplace by teaching you key business concepts and tactics, while sharpening your communication and interpersonal skills. Our curriculum can help you understand the core concepts of accounting, why it is so fundamental to businesses, and how using accounting can help businesses operate, perform and grow more efficiently. Our coursework includes an introduction to business and technology, as well as the study of data analysis, database management, and budgeting and forecasting.
