CAMPUS WATCH

It's your campus - Protect it!

A truly safe campus can only be achieved through the cooperation of students, faculty and staff. As a member of the DeVry University community, it is your responsibility to report a crime, suspicious activity or other emergencies on campus to the appropriate school official. Should you become a witness to or victim of a crime, immediately report the incident to local law enforcement officials, the Student Services office, or to the Center Dean. All crimes will be investigated and when appropriate, brought to the attention of the Student Services office for disciplinary hearings.

Purpose of the Annual Disclosure Report

DeVry University prepares this report to comply with the *Jeanne Clery Disclosure of Campus Security and Crime Statistics Act*. The full text of this document can also be found on the <http://www.devry.edu/studentconsumerinfo.html> or by visiting your local center. This report was prepared with the assistance of local law enforcement agencies. Campus crime, arrest and referral statistics include those that were reported to local law enforcement and campus faculty and staff. This data may also include crimes that have occurred in private residences or businesses adjacent to the campus.

REPORTING CRIMES AND EMERGENCIES

When making your report of an incident you will be asked to provide the following information:

1. Description of the incident
2. Date, time and location of the incident
3. Description of the persons or vehicles involved in the incident
4. Detail regarding who was notified about the incident

Upon receipt of this report DeVry University will determine the appropriate response, which could include disciplinary action against the offender(s), notification to local law enforcement, notification to the campus community or other public safety alternatives deemed appropriate given the circumstances. Please note that your identity may not be confidential when reporting an incident. DeVry University does not have procedures for voluntary, confidential reporting of crimes.

Once each semester, DeVry University will contact the Morrisville/Wake county, police departments and property management to monitor and record crimes that occur within the designated area surrounding the campus that have been reported to the local Police.

All Emergencies –Dial 911

ANNUAL SECURITY REPORT

DeVry University will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the SIREN notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

The Center Dean will determine if there is a significant emergency or dangerous situation and what segment of the campus community will need to receive a notification.

DeVry University will:

- Test emergency response and evacuation procedures on an annual basis
- Document each test, including the date, time, and whether it was announced or unannounced
- Publicize emergency response and evacuation procedures in conjunction with at least one test per calendar year

SIREN EMERGENCY ALERT SYSTEM

In the event of an emergency or a potentially dangerous threat to the campus or center arises, students, faculty and staff will receive timely notification via the SIREN system, on campus flyers, and/or email announcements. This includes any Clery Act crimes that are reported to the campus IC or local police and are considered to represent a serious or continuing threat to students, faculty, and staff. Please make sure to keep contact information updated in SIREN through the student portal at my.devry.edu for students and the DVG Commons at <https://adfsapps.devry.edu/adfs/ls/?wa=wsignin1.0&wtrealm=https://cas.devry.edu:443/cas&App=thedeverycommons.com> for faculty and staff.

CAMPUS ACCESS, FACILITY SECURITY AND LAW ENFORCEMENT

Raleigh-Durham Center

The Facilities department maintains the building and grounds with a concern for safety and security. Facilities staff inspect the facility regularly, promptly make repairs affecting safety and security hazards, and respond to reports of potential safety and security hazards such as broken windows, locks, etc. Students, faculty and staff can assist the Facilities staff by calling (919) 463-1380 to report concerns. Additionally, the Facilities Manager routinely inspects the grounds and building to review lighting and other environmental concerns for safety.

There are fire alarms and pull stations throughout the facility that should be used only in the event of an emergency. If an emergency requires evacuation, there are signs clearly posted throughout the building indicating the best routes for evacuation.

The building is generally open from 7:00 a.m. to 10:00 p.m. Monday through Thursday and 8:00 a.m. to 4:00 p.m. on Friday and Saturday. When the building is closed, it is locked and monitored by a security company. Access to classrooms and laboratories is limited to those enrolled in the courses meeting there. Access to on- and off-campus activities is limited to actively enrolled students and their guests. Students are responsible for the behavior of their guests at all times at campus-arranged events. DeVry University reserves the right to require that DeVry University identification cards be presented for admittance to certain locations and events. DeVry University may also require students to register their guests with Student Services prior to attendance. Student, faculty and staff identification cards should be worn at all times.

All crime victims and witnesses are strongly encouraged to report incidents to both campus security and local police. Prompt reporting will ensure timely warning notices to the campus community and timely disclosure of crime statistics.

Students living in off-campus student housing facilities should check with the apartment landlord for specific safety and security measures at their complex. Although most complexes provide keys for individuals and restrict access to apartments, the level of additional security varies from complex to complex. Crimes committed at off-campus housing should be immediately reported to the Police department with jurisdiction over the complex and as soon as reasonably possible to the Student Services office.

The campus security department maintains a policy concerning the monitoring and recording, through local police departments, of criminal activity in which students engaged at off-campus locations of student organizations officially recognized by the institution, including student organizations with off-campus housing facilities.

Raleigh-Durham Center

The Center is located in a public office building. This building has its own security and maintenance staff that must adhere to strict regulations of various city ordinances and routine inspections (i.e., Fire Department). The Center lists the hours it is accessible on the student bulletin board. Admittance to the Center during off hours must be arranged with the Center Dean in conjunction with the building manager. Access to classroom facilities and

computer laboratories is limited to those enrolled in courses. As a further safeguard, these areas are accessible only through doors with combination locks that are regularly changed.

SEXUAL OFFENSE AWARENESS

Definitions

Dating violence is defined as violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved in the relationship.

Domestic violence is defined as felony or misdemeanor crime of violence committed by a current or former spouse or intimate partner of the victim; by a person with whom the victim shares a child in common; by a person who is cohabitating with, or has cohabitated with, the victim as a spouse or intimate partner; by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred; by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred.

Rape is defined as penetration, no matter how slight, of the vagina or anus, with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.

Sexual assault is defined as any sexual act directed against another person, without consent of the victim, including instances where the victim is incapable of giving consent.

Stalking is defined as engaging in a course of conduct directed at a specific person that would cause a reasonable person to: fear for his/her safety or the safety of others; or suffer substantial emotional distress.

Procedures to Follow After an Assault

Victims of a sexual assault or rape are strongly encouraged to report the incident in order to deter these assaults and to ensure that victims receive the services they need. Steps should be taken to help deal with the physical and emotional trauma:

1. Go to a safe place; go somewhere to receive emotional support.
2. Report a sexual assault on campus to the Dean of Student Affairs or local leadership.
3. Report the assault to the police. If requested, DeVry University will assist with notification.
4. Preserve all physical evidence. Do not shower, bathe or douche and save the clothing worn.
5. Go to the hospital for medical care. Injuries should be treated and an examination completed to document and collect physical evidence of the assault. DeVry University will assist with transportation if necessary.
6. Seek professional counseling. This can help in the recovery from the psychological effects of the assault.

Please refer to the *Resources for Victims of Sexual Assault* section of this document for a list of local resources that will provide immediate advice and assistance to victims of sexual assault or rape.

Victims of a sexual assault or rape may request a change in their academic arrangements by contacting their Center Dean. Changes will be made if feasible and reasonable to do so.

All reports filed with DeVry University will remain confidential. Staff and faculty should report any on-campus sexual offenses to the Human Resources office and the proper authorities.

Disciplinary Action

Disciplinary procedures and sanctions as outlined in the Student Code of Conduct will be followed once charges are brought after an alleged sexual assault. Both the accuser and the accused are entitled to the same opportunities to have others present during a disciplinary hearing. Both the accuser, upon his/her written request, and the accused, of a crime of violence or a non-forcible sex offense, will be informed of the results of any disciplinary proceedings conducted as a result of an alleged sexual assault.

Sexual Offense Awareness

Additional information regarding DeVry University's programs to prevent an incident, as well as the procedures to follow once an incident occurs (which includes a standard of evidence that will be used during any institutional conduct proceeding arising from such a report), of domestic violence, dating violence, sexual assault, or stalking can be found in DeVry University's Sex and Gender-Based Misconduct Response and Prevention Policy found at <http://www.devry.edu/studentconsumerinfo.html>.

CAMPUS SEX CRIMES PREVENTION ACT

The Campus Sex Crimes Prevention Act requires sex offenders already required to register in a State to provide notice, as required under State law, to each institution of higher education in that state at which the person is employed, carries on a vocation, or is a student. The act requires that state procedures ensure this registration information is promptly made available to law enforcement agencies with jurisdiction where the institutions of higher education are located and that it is entered into appropriate state records or data systems. These changes became effective two years after enactment of the law (2002).

This act amends the Higher Education Act of 1965 to require institutions of higher education to issue a statement, in addition to other disclosures required under that Act, advising the campus community where law enforcement agency information provided by a State concerning registered sex offenders may be obtained. This change takes effect two years after enactment (2002).

This act amends the Family Educational Rights and Privacy Act of 1974 to clarify that nothing in that Act may be construed to prohibit an educational institution from disclosing information provided to the institution concerning registered sex offenders; requires the Secretary of Education to take appropriate steps to notify educational institutions that disclosure of this information is permitted.

To check registered sex offenders in a state see the State Sexual Offender Registry List section.

§ 90-88. Authority to control.

- (a) The Commission may add, delete, or reschedule substances within Schedules I through VI of this Article on the petition of any interested party, or its own motion. In every case the Commission shall give notice of and hold a public hearing pursuant to Chapter 150B of the General Statutes prior to adding, deleting or rescheduling a controlled substance within Schedules I through VI of this Article, except as provided in subsection (d) of this section. A petition by the Commission, the North Carolina Department of Justice, or the North Carolina Board of Pharmacy to add, delete, or reschedule a controlled substance within Schedules I through VI of this Article shall be placed on the agenda, for consideration, at the next regularly scheduled meeting of the Commission, as a matter of right.
- (a1) In making a determination regarding a substance, the Commission shall consider the following:
- (1) The actual or relative potential for abuse;
 - (2) The scientific evidence of its pharmacological effect, if known;
 - (3) The state of current scientific knowledge regarding the substance;
 - (4) The history and current pattern of abuse;
 - (5) The scope, duration, and significance of abuse;
 - (6) The risk to the public health;
 - (7) The potential of the substance to produce psychic or physiological dependence liability; and
 - (8) Whether the substance is an immediate precursor of a substance already controlled under this Article.
- (b) After considering the required factors, the Commission shall make findings with respect thereto and shall issue an order adding, deleting or rescheduling the substance within Schedules I through VI of this Article.
- (c) If the Commission designates a substance as an immediate precursor, substances which are precursors of the controlled precursor shall not be subject to control solely because they are precursors of the controlled precursor.
- (d) If any substance is designated, rescheduled or deleted as a controlled substance under federal law, the Commission shall similarly control or cease control of, the substance under this Article unless the Commission

objects to such inclusion. The Commission, at its next regularly scheduled meeting that takes place 30 days after publication in the Federal Register of a final order scheduling a substance, shall determine either to adopt a rule to similarly control the substance under this Article or to object to such action. No rule-making notice or hearing as specified by Chapter 150B of the General Statutes is required if the Commission makes a decision to similarly control a substance. However, if the Commission makes a decision to object to adoption of the federal action, it shall initiate rule-making procedures pursuant to Chapter 150B of the General Statutes within 180 days of its decision to object.

(e) The Commission shall exclude any nonnarcotic substance from the provisions of this Article if such substance may, under the federal Food, Drug and Cosmetic Act, lawfully be sold over-the-counter without prescription.

(f) Authority to control under this Article does not include distilled spirits, wine, malt beverages, or tobacco.

(g) The Commission shall similarly exempt from the provisions of this Article any chemical agents and diagnostic reagents not intended for administration to humans or other animals, containing controlled substances which either (i) contain additional adulterant or denaturing agents so that the resulting mixture has no significant abuse potential, or (ii) are packaged in such a form or concentration that the particular form as packaged has no significant abuse potential, where such substance was exempted by the Federal Bureau of Narcotics and Dangerous Drugs.

(h) Repealed by Session Laws 1987, c. 413, s. 4.

(i) The North Carolina Department of Health and Human Services shall maintain a list of all preparations, compounds, or mixtures which are excluded, exempted and excepted from control under any schedule of this Article by the United States Drug Enforcement Administration and/or the Commission. This list and any changes to this list shall be mailed to the North Carolina Board of Pharmacy, the State Bureau of Investigation and each district attorney of this State. (1971, c. 919, s. 1; 1973, c. 476, s. 128; cc. 524, 541; c. 1358, ss. 2, 3, 15; 1977, c. 667, s. 3; 1981, c. 51, s. 9; 1987, c. 413, ss. 1-4; 1989, c. 770, s. 16; 1997-443, s. 11A.118(a); 2000-189, s. 4; 2001-487, s. 22.)
