

Bachelor's Degree Program

BUSINESS ADMINISTRATION

Specialization: **Business Intelligence and Analytics Management**

ABOUT THIS DEGREE PROGRAM

Businesses large and small are the core of the American economy. Earning a bachelor's degree in Business Administration at DeVry University can help you develop the skills needed to work in many business areas and industries, such as accounting, project management, entrepreneurship, marketing, and human resources.

The Business Administration degree program is designed to prepare students to meet the challenges of a high-tech, global marketplace by bringing the real world into the classroom. Through experiential projects, you can develop the skills and business acumen needed in today's business world.

This program is designed to accommodate students with a wide range of experiences, including those with little or no prior college education or work experience. If you have prior work or educational experience, you may also want to consider our Technical Management or Management degree programs, which are available with many of the same specializations.

DID YOU KNOW?

DeVry University's Bachelor of Science in Business Administration program has achieved voluntary accreditation from the Accreditation Council for Business Schools and Programs (ACBSP) www.acbsp.org, demonstrating that it has met the standards of business education that promote teaching excellence.

Bachelor's Degree Program | Business Administration

SPECIALIZATION: BUSINESS INTELLIGENCE AND ANALYTICS MANAGEMENT

COLLEGE OF
BUSINESS & MANAGEMENT

ABOUT THIS SPECIALIZATION

DeVry University's bachelor's degree program in Business Administration can help prepare you for the workplace with a solid business foundation. Our specialization in Business Intelligence and Analytics Management can further focus your studies.

Businesses rely on data to drive strategies for improving their revenue growth, increasing their profitability and boosting their competitive advantage. Their ability to collect data on customers, suppliers, competitors and inventory is growing by the day — but the volume and complexity of the information they gather is increasing, too. Business intelligence and analytics management is the science of processing business data, identifying patterns and correlations, and using that information to develop insights and strategic direction.

In our Business Intelligence and Analytics Management specialization, you can learn about a range of analytical tools and how to apply them. The curriculum will immerse you in the essential aspects of the field, including applications, databases and data modeling, as well as related topics such as accounting, electronic business management and e-commerce.

Graduates of DeVry University's Business Administration program with a specialization in Business Intelligence and Analytics Management may consider careers including, but not limited to, the following:

- Business Analysis Manager
- Business Analyst
- Business Intelligence Administrator
- Business Intelligence Analyst
- Business Intelligence Developer
- Business Intelligence Manager
- Financial Analyst
- Marketing Analyst

Employment in some occupations may require years of relevant experience.
