

Bachelor's Degree Program BUSINESS ADMINISTRATION

Specialization: **Project Management**

ABOUT THIS DEGREE PROGRAM

Businesses large and small are the core of the American economy. Earning a bachelor's degree in Business Administration at DeVry University can help you develop the skills needed to work in many business areas and industries, such as accounting, project management, entrepreneurship, marketing, and human resources.

The Business Administration degree program is designed to prepare students to meet the challenges of a high-tech, global marketplace by bringing the real world into the classroom. Through experiential projects, you can develop the skills and business acumen needed in today's business world.

This program is designed to accommodate students with a wide range of experiences, including those with little or no prior college education or work experience. If you have prior work or educational experience, you may also want to consider our Technical Management or Management degree programs, which are available with many of the same specializations.

DID YOU KNOW?

DeVry University's Bachelor of Science in Business Administration program has achieved voluntary accreditation from the Accreditation Council for Business Schools and Programs (ACBSP) www.acbsp.org, demonstrating that it has met the standards of business education that promote teaching excellence.

Programs, course requirements and availability vary by location. Some courses may be available online only. All students enrolled in site-based programs will be required to take some coursework online and, for some programs and locations, a substantial portion of the program may be required to be completed online. DeVry's academic catalog, available via devry.edu/catalogs, contains the most current and detailed program information, including admission, progression and graduation requirements. Information contained herein is effective as of date of publishing.

ABOUT THIS SPECIALIZATION

DeVry University's bachelor's degree program in Business Administration helps prepare you for the workplace with a solid business foundation. Our specialization in Project Management can further focus your studies.

Project managers guide a project from planning to completion by facilitating ideas, resources and information from team members and outside resources. In this role, you may manage a team of developers, builders, designers, manufacturers or other professionals in order to create final products that may range from software to consumer goods. Our Project Management specialization can help you learn key tasks such as setting budgets and timelines, providing estimates, acquiring outside resources, and identifying and evaluating project goals and deliverables.

Graduates of DeVry University's Business Administration program with a specialization in Project Management may consider careers including, but not limited to, the following:

- Construction Manager
- Cost Estimator
- General and Operations Manager
- Industrial Production Manager
- Management Consultant
- Organizational Change Manager
- Procurement Manager
- Project Developer
- Project Manager
- Project Quality Manager
- Project Specialist
- Project Team Leader

Employment in some occupations may require years of relevant experience.

KNOWLEDGE AND SKILLS

ADMINISTRATION AND MANAGEMENT — Understand the fundamental management theories and traditional managerial responsibilities in formal and informal organizational structures, including planning, organizing, directing, controlling and staffing.

PROJECT PLANNING — Develop or update project plans, including information such as project objectives, technologies, systems, information specifications, schedules, funding and staffing.

PROJECT EXECUTION — Manage projects to ensure adherence to budget, schedule and scope.

STATUS REPORTING — Monitor and report on project progress by collecting, analyzing and summarizing information and trends.

PROJECT TASK SETTING — Assign duties, responsibilities and spans of authority to project personnel.

PROJECT TEAM SELECTION — Coordinate recruitment or selection of project personnel.

BUDGET MANAGEMENT — Develop and manage annual budgets for projects.

PROJECT ANALYSIS — Develop implementation plans that include cost-benefit or return on investment (ROI) analyses.

PROJECT COMMUNICATION — Establish and execute a plan for keeping internal and external contacts apprised of project developments and deliverables.

TOTAL QUALITY MANAGEMENT — Understand quality procedures and concepts for enhancing goods, services and the entire business process.

CONTRACTS AND PROCUREMENT — Understand how to acquire goods and services in order to meet project requirements from planning, solicitation and source selection, to contract administration and completion.

BUSINESS SYSTEMS ANALYSIS — Learn current techniques to review the activities and processes of a business, identify problems and create solutions. Hone interviewing skills; navigate group dynamics; and develop process flows, data flows and data models to identify, define, document and solve business challenges.
