A bachelor’s degree in Communications can prepare and empower you to respond critically and creatively to real-world challenges. At DeVry University, our curriculum is developed with input from industry and education leaders across the country. You can develop skills in areas, such as public relations, journalism and technical writing, and learn to communicate with confidence, clarity and credibility. From information analysis and understanding diversity, to collaboration and complex problem solving, the skills you develop can help prepare you for work in the communications field.

Programs, course requirements and availability vary by location. Some courses may be available online only. All students enrolled in site-based programs will be required to take some coursework online and, for some programs and locations, a substantial portion of the program may be required to be completed online. DeVry’s academic catalog, available via devry.edu/catalogs, contains the most current and detailed program information, including admission, progression and graduation requirements. Information contained herein is effective as of date of publishing.
ABOUT THIS SPECIALIZATION

Business Communication entails a variety of functions related to an organization’s internal and external communications. As a graduate, you can be prepared for a diverse set of roles and responsibilities.

Typical tasks include researching and conducting interviews for written pieces, developing written and verbal communications, creating public presentations, providing management support and engaging in creative collaboration. You may find opportunities within a variety of industries including both public and private sectors.

Graduates of DeVry University’s Communications degree program with a specialization in Business Communication may consider careers including, but not limited to, the following:

- Advertising Copywriter
- Crisis and Emergency Communications Specialist
- Corporate Communications Specialist
- Employee Relations Manager
- Freelance Journalist
- Marketing Communications Specialist
- Media Relations Coordinator
- Training and Employee Development Manager

Employment in some occupations may require years of relevant experience.

KNOWLEDGE AND SKILLS

PRODUCTION — Study media types, delivery techniques and methods. This includes alternative ways to inform and entertain via written, oral, electronic and visual media.

WRITING — Prepare effective and appropriate written communication by audience.

SALES AND MARKETING — Gain knowledge of principles and methods for showing, promoting, and selling products or services. This includes marketing strategy and tactics, product demonstration, sales techniques and sales control systems.

ACTIVE LEARNING — Understand the implications of new information for both current and future problem solving and decision making.

TRAINING — Select and use appropriate or instructional methods and procedures when training others.

COMPLEX PROBLEM SOLVING — Identify complex problems and review related information to develop and evaluate options and implement solutions.

ORGANIZATION — Organize material and complete writing assignments according to set standards regarding order, clarity, conciseness, style and terminology.

CRITICAL THINKING — Use logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.
