

CONNECTED CLASSROOM TECHNOLOGY FAQS

WHAT IS CONNECTED CLASSROOM TECHNOLOGY?

Connected classroom technology enables an immersive learning experience for students, connecting two classroom locations for simultaneous instruction and live collaboration to enhance learning.

FEATURES INCLUDE:

- Widescreen monitors to provide views of both classrooms in real time
- Wireless content sharing from student and professor devices
- Two-way whiteboards display that allow real-time interaction
- Automated system monitoring and alerts; trained staff to support technology functions

BENEFITS INCLUDE:

- An extended classroom environment that joins students from different geographic areas and diverse cultures to learn and work together
- The opportunity to learn from DeVry's most experienced faculty across the country
- Active learning and problem-oriented instruction with the ability to dive into relevant case studies, shared examples, group projects and situational discussion, live in real time
- Exposure to some of the latest video conferencing and audio-visual technology capabilities that mirror the way communication and collaboration happens in many companies today
- Access to more courses with seats available to help you complete the courses you need to earn your degree more quickly

WHICH LOCATIONS ARE RECEIVING THE CONNECTED CLASSROOM TECHNOLOGY?

Ultimately, we hope to make this new technology available throughout the DeVry University network. We're starting with 20 locations, and plan to expand in the future. Beginning with the January 2016 session, select courses will be offered in the new extended classroom environment in the following cities:

STATE	LOCATION
Arizona	Phoenix
California	Bakersfield, Folsom, Fresno, Long Beach, Oakland, San Diego, San Jose, Sherman Oaks
Colorado	Colorado Springs
Georgia	Decatur
Illinois	Addison, Chicago, Chicago Loop, Downers Grove, Tinley Park
Ohio	Columbus
Nevada	Henderson
New Jersey	North Brunswick
Pennsylvania	Philadelphia
Oklahoma	Oklahoma City
Texas	Irving
Virginia	Norfolk

WHAT TYPE OF STUDENT WILL BENEFIT FROM THIS TECHNOLOGY?

Students who appreciate set class meeting times, dynamic interaction with classmates and professors, and face-to-face collaboration will likely benefit a great deal from the connected classroom experience.

WHAT DOES A STUDENT NEED TO DO DIFFERENTLY IF THEY TAKE A CLASS IN THIS FORMAT?

There is nothing to do differently. Just as in a traditional classroom, student participation enhances the value of the class and creates a more effective learning environment. Classes in connected classrooms offer new opportunities to engage, so simply be prepared to interact.

HOW DO I KNOW WHICH COURSES ARE BEING OFFERED/TAUGHT IN THE CONNECTED CLASSROOM?

Speak with your student support advisor if you are in one of the states and locations listed on the previous page.

Note: DeVry University will be recommending courses taught in the connected classroom directly to students that have the course in their plan of study and take classes at a location that offers courses in these advanced classrooms.

WILL THE PERSONALIZED ATTENTION THAT I RECEIVE IN A TYPICAL CLASSROOM CHANGE AS A RESULT OF THIS NEW CLASSROOM ENVIRONMENT?

The potential for interaction with and between students and professors can be even stronger in a connected classroom. Certified professors will facilitate active learning sessions to support and encourage connection and attention to each student.

CAN STUDENTS JOIN CLASS FROM HOME/ELSEWHERE?

No. Our student attendance policies remain the same. Please see your student success advisor or your campus catalog for more details.

IS THERE A LIMIT TO HOW MANY STUDENTS PARTICIPATE IN THE CONNECTED CLASSROOMS?

Yes. There will be no more than 30 total students in the class, between both connected sites.

WHEN DO COURSES BECOME AVAILABLE IN THE CONNECTED CLASSROOMS?

Courses will be offered in the connected classrooms beginning with the January 2016 session.

IS THERE AN OPPORTUNITY TO EXPERIENCE A DEMONSTRATION?

Yes, if you are in one of the connected classroom locations, your campus will be offering a demonstration during an upcoming open house at the end of the November session, in the month of December.

HOW CAN I ENROLL?

Beginning with the January 2016 session, you can register for a connected classroom course offering through the student self-service registration portal or by speaking with your local student support advisor.

In New York, DeVry University operates as DeVry College of New York. DeVry is accredited by The Higher Learning Commission (HLC), www.hlcommission.org. Keller Graduate School of Management is included in this accreditation. DeVry is certified to operate by the State Council of Higher Education for Virginia. DeVry University is authorized for operation by the THEC. www.tn.gov/thecc. Nashville Campus — 3343 Perimeter Hill Dr., Nashville, TN 37211. Program availability varies by location.
