

Georgia Professional Licensure Disclosure | Certified Public Accountant (CPA)

Overview

DeVry University and its Keller Graduate School of Management are committed to providing students with accurate information to help students make informed decisions about their education.

The educational and non-educational prerequisites for Certified Public Accountant (CPA) licensure can vary significantly from state to state and U.S. territory. These variations encompass the number of accounting and business course hours, experience, exam success, background checks¹, and ethical compliance. Understanding these differences is key to determining a student's eligibility to sit for the Uniform CPA exam and apply for licensure in different jurisdictions. The U.S. Department of Veterans Affairs regulations mandate institutions to transparently disclose any additional non-educational requirements necessary to obtain the license or certification for which the program of education is designed to provide preparation.

¹Results of a background check may disqualify an individual from obtaining licensure. As such, it is your responsibility to determine if your circumstances pose any barriers.

Education Requirements

Educational requirements to apply for a CPA license in Georgia after January 1, 1998:

- Bachelor's degree or higher
- Total of 150 semester hours of education
- Thirty (30) semester hours in accounting above the introductory level
- Twenty-four (24) semester hours in business related subjects

Experience Requirements

CPA candidates in Georgia are required to have a certain amount of experience working in public accounting. The following stipulations must be met before a candidate can apply for licensure:

- 2,000 hours of full-time work experience in accounting gained within one year.
- Candidates can gain work experience by working in business, industry, or government fields.
- Experience gained through part-time jobs is not accepted.

- The work experience must be supervised by a CPA with an active license. The only exception is if the candidate works in a college or government office.
- The work history cannot go back more than a year before the application was submitted.
- Breaks in service of up to a year in length are permitted during the experience.

Ethics Requirements

No ethics exam required to obtain a CPA license in Georgia.

Other Requirements

- Pass all four parts of the CPA Exam with a score of 75 for each section within a rolling 18-month period.
- A valid Social Security number is necessary to obtain a CPA license in Georgia. If you do not have a Social Security number, you should check with the board to determine if you can use a taxpayer identification number instead.
- The candidate must be a lawful citizen of the United States to be eligible for the CPA license.
- The minimum age requirement for the CPA Exam in Georgia is 18 years.
- Be of good moral character.

DVU Licensure Programs

The following DVU programs meet the educational requirements for CPA licensure in the state of Georgia:

- Master of Science in Accounting - Certified Public Accountant (CPA) Exam Preparation Emphasis
- Master of Accounting and Financial Management – Certified Public Accountant (CPA) Exam Preparation Emphasis

It is important to note that these determinations apply to individuals holding a bachelor's degree in accounting or a business degree with a focus on accounting or finance. DeVry's bachelor's degrees in accounting and business were used as a baseline for these determinations, and checking with your state board of accountancy is recommended to ensure that all specific educational requirements for licensure are satisfied.

CPA Review Courses

Credits obtained from CPA exam review courses cannot be used to fulfil the mandatory concentration in accounting coursework in the following states: FL, KS, NJ, NY, TX, and VT.

Accreditation

DeVry University is accredited by The Higher Learning Commission (HLC), www.hlcommission.org. The University's Keller Graduate School of Management is included in this accreditation.

Our Accounting Degrees are accredited by the Accreditation Council for Business Schools and Programs (ACBSP) www.acbsp.org. Please refer to the [academic catalog](#) for details.

Student Relocation

Students who intend to relocate should notify the DeVry University of their location change and review the professional licensure requirements of that state's professional licensing board. Visit the [National Association of State Boards of Accountancy](#) to find the contact information, as well as a listing of statutes for the State Board of Accountancy in each of the 55 jurisdictions. For additional information about student relocation, please refer to the student relocation notice within the [academic catalog](#).

Other Accounting Related Programs

The programs listed below are not specifically designed to prepare students for licensure. However, they offer valuable knowledge and resources that can provide a foundation in accounting and business concepts as well as practical skills.

The undergraduate programs are classified as pre-licensure programs. For example, every state and territory require a minimum of 150 semester credits of specific coursework for CPA licensure eligibility. Generally, undergraduate programs do not provide enough credits to meet this requirement. Nevertheless, students can leverage the credits earned in these undergraduate programs toward the licensure requirements.

The Graduate Certificate in Accounting Certification Preparation program, with a Certified Public Accountant Exam Preparation option is designed to help students prepare to sit for the CPA exam by offering practical resources and focused exam preparation. Additionally, the program may offer a few extra credits in certain states to help students qualify for CPA licensure.

The remaining programs provide advanced knowledge and skills in accounting and finance to equip students for various non-licensure accounting and finance roles, such as financial analyst, management accountant, internal auditor, budget analyst, and financial manager.
