ASSOCIATE DEGREE PROGRAM | TECH - ENGINEERING TECHNOLOGY

ENGINEERING TECHNOLOGY
Specialization: Medical Technology and Healthcare Systems

ABOUT THIS PROGRAM

IS THIS PROGRAM FOR YOU?
If you are interested in understanding the design of medical equipment and developing the skills needed to maintain the devices used in hospitals and clinics related to patient care, then this program is for you.

A PROGRAM TO FUEL YOUR FUTURE
Explore the technology that powers medical equipment and enables access to healthcare systems. Students will learn about medical instrumentation with principles of biomedical devices used in healthcare systems and medical imaging technologies. You’ll have the opportunity to immerse yourself in the Internet of Things (IoT) world and obtain hands-on experience with IoT, cloud, software and security technologies and systems.

CAREER OPPORTUNITIES
Graduates of DeVry’s Engineering Technology associate degree program with a specialization in Medical Technology and Healthcare Systems may consider, but are not limited to, the following careers:
- Biomedical Technician
- Biomedical Engineering Technician
- Computer User Support Specialist
- Electrical and Electronic Engineering Technologists and Technicians
- Electro-Mechanical and Mechatronics Technologists and Technicians
- Engineering Technologist General
- Engineering Technologist and Technicians, Except Drafters, All Other
- Field Service Technician
- Industrial Engineering Technologists and Technicians
- Medical Equipment Repairer
- Repair Technician

WHAT YOU’LL LEARN

ESSENTIALS
- Communicate methods and findings
- Collaborate in a dynamic work environment
- Solve complex problems
- Analyze numerical data
- Apply appropriate technologies

TECH CORE
- Produce, secure, operate and troubleshoot a small enterprise network
- Network, secure and deploy digital devices and sensors into the Internet of Things ecosystem
- Solve technical problems using an algorithmic approach and basic programming and coding methods
- Install and configure operating systems using Command Line Interface (CLI)

PROGRAM
- Design and analyze circuits ensuring proper construction, voltage and currents
- Understand the essential components of control systems designs and how to apply ladder logic to debug or maintain applications

SPECIALIZED
- Learn basic medical terminology, human body structure and processes
- Understand the design, function and features of common medical devices and healthcare systems
- Understand the basic components of various imaging systems and how to maintain/troubleshoot them to ensure image quality
- Transfer and manipulate medical record and device information over networks

QUICK FACTS

- 64 CREDIT HOURS minimum credit hours required for graduation
- 21 COURSES

CERTIFICATION EXAM ALIGNED CURRICULUM
Experience elements of our technology curriculum focused on real-world industry standards and prepare for certification opportunities to help validate your knowledge and skills, such as:
- CompTIA
- CompTIA Network+
- CompTIA Cloud+
- CompTIA

BE AN ACTIVE PART OF AN INCLUSIVE FUTURE
Customize your curriculum by choosing Diversity, Equity and Inclusion (DE&I) course alternates for your Communication Skills, Humanities and Social Science courses. These options highlight relevant topics to help empower you to promote an inclusive workplace.

MINIMUM COMPLETION TIME*  OR  NORMAL COMPLETION TIME

1 year
4 months

2 years

ACCELERATE AT YOUR PACE
Choose the schedule that best fits your goals and commitments. You can earn your Associate Degree in as little as 1 year 4 months.

Or, follow a normal schedule and complete your program in 2 years.

*Per 12-month period, assumes completion of three full-time semesters (typically two courses per session) and continuous, year-round enrollment with no breaks. See catalog for details.

10 CREDIT HOURS

HOW DO CREDENTIALS STACK?

This Associate in Engineering Technology with a specialization in Medical Technology and Healthcare Systems can serve as a steppingstone to our Engineering Technology bachelor's degree. If you choose to continue on with your education, all credits apply to this credential. Build your confidence – and your resume – when you start your journey at DeVry.*

*The figures displayed represent the minimum credit hours required for graduation. At the time of application to the next credential level, an evaluation of qualifying transfer credit will occur and the most beneficial outcome will be applied.
