

Bachelor's Degree Program

HEALTHCARE ADMINISTRATION

Specialization: **Healthcare Management**

ABOUT THIS DEGREE PROGRAM

As the healthcare system strives to provide more efficient and effective care, electronic recording and access to patient information has become a major industry goal.

Our curriculum is based on current associate degree entry-level competencies outlined by the American Health Information Management Association (AHIMA). You can learn how to capture digital health information using current coding and chart management software, in addition to having the opportunity to get hands-on, real world experience during two practicums.

Through our TechPath approach, we've put technology at the core of our programs in business, tech and health – including this program. Every TechPath class you take revolves around a unique learning rubric developed at DeVry. We call it People-Process-Data-Devices or P2D2. You'll gain real skills in collaboration, be able to adapt to new structures, and be comfortable working with data and a wide spectrum of tech-forward tools. P2D2 is a key component of what makes TechPath a smart, new way of getting the knowledge you need to be ready to hit the ground running in the way successful companies work today.

GENERAL EDUCATION COURSEWORK

Communication Skills

- ENGL112** Composition
- ENGL135** Advanced Composition
- ENGL216** Technical Writing
- SPCH275** Public Speaking

Humanities

- HUMN303** Introduction to the Humanities
- ETHC445** Principles of Ethics
- LAS432** Technology, Society, and Culture

Social Sciences

- ECON312** Principles of Economics
- SOCS185** Culture and Society
- SOCS325** Environmental Sociology

Mathematics and Natural Sciences

- BIOS135** Foundations in Biology and Chemistry with Lab
- MATH114** Algebra for College Students
- MATH221** Statistics for Decision-Making

Personal and Professional Development

- CARD405** Career Development
- COLL148** Critical Thinking and Problem-Solving

CORE-DEGREE COURSEWORK

Business and Technology

- ACCT212** Financial Accounting
- ACCT346** Managerial Accounting
- BIS155** Data Analysis with Spreadsheets with Lab
- BIS245** Database Essentials for Business with Lab
- BUSN115** Introduction to Business and Technology
- BUSN278** Budgeting and Forecasting
- BUSN350** Business Analysis
- COMP100** Computer Applications for Business with Lab
- MGMT303** Principles of Management
- MGMT404** Project Management

Health Services

- HSM310** Introduction to Health Services Management
- HSM320** Health Rights and Responsibilities
- HSM330** Health Services Information Systems
- HSM340** Health Services Finance
- HSM410** Healthcare Policy

Programs, course requirements and availability vary by location. Some courses may be available online only. All students enrolled in site-based programs will be required to take some coursework online and, for some programs and locations, a substantial portion of the program may be required to be completed online. DeVry's academic catalog, available via devry.edu/catalogs, contains the most current and detailed program information, including admission, progression and graduation requirements. Information contained herein is effective as of date of publishing.

ABOUT THIS SPECIALIZATION

DeVry University's bachelor's degree program in Healthcare Administration can help prepare you for the dynamic field of healthcare.

The healthcare field needs professionals to help improve the quality and efficiency of healthcare, while controlling costs. Healthcare managers may oversee the computerization of patients' records and ensure the information is secure, recruit new employees, implement new technologies, facilitate changes in healthcare regulations and help evolve new models of patient care.

DeVry University's Healthcare Management specialization has a strong emphasis on health services, coupled with fundamental business and management courses designed to help you adapt and succeed when faced with ever changing workplace challenges. Specializing in Healthcare Management at DeVry University can support and advance your commitment to serving others with the knowledge and ability to be effective in a variety of roles.

Our Healthcare Management specialization can help prepare you to play an important role in areas such as healthcare policy, managed care, insurance, information systems or finance.

Graduates of DeVry University's Healthcare Administration degree program with a specialization in Healthcare Management may consider careers including, but not limited to, the following:

- Administrative Service Manager
- Admissions Coordinator
- Assistant Administrator
- Business Office Supervisor
- Clinical Administrative Coordinator
- Health Services Manager
- Healthcare Administrators
- Medical Office Manager
- Medical Services Manager
- Office Manager – Home Care

Employment in some occupations may require years of relevant experience.

DeVry's Healthcare Administration program is not designed to prepare graduates for nursing home, assisted living facility, long-term care or home care administrator positions. Students interested in practicing a regulated profession must contact the appropriate state regulatory agency for certification or licensure requirements. For instance, in Virginia certain educational and training requirements must be satisfied for initial nursing home administrator licensure or initial assisted living facility administrator licensure; DeVry's program does not satisfy the educational and/or training requirements.
