

Bachelor's Degree Program

HEALTHCARE ADMINISTRATION

Specialization: **Healthcare Management**

ABOUT THIS DEGREE PROGRAM

The healthcare industry is striving to provide more efficient and effective care. Earning a bachelor's degree in Healthcare Administration at DeVry University can help you develop the skills needed to work in many healthcare areas and industries, such as accounting, project management, marketing and human resources.

The Healthcare Administration degree program is designed to prepare students to meet the challenges of a high-tech, global marketplace by bringing the real world into the classroom. Through experiential projects, you can develop the skills and business acumen need in today's healthcare environment.

This program is designed to accommodate students with a wide range of experiences, including those with little or no prior college education or work experience. If you have prior work or educational experience, you may also want to consider our Technical Management or Management degree programs, which both offer a specialization in Health Services Management.

ABOUT THIS SPECIALIZATION

DeVry University's bachelor's degree program in Healthcare Administration can help prepare you for the dynamic field of healthcare.

The healthcare field needs professionals to help improve the quality and efficiency of healthcare, while controlling costs. Healthcare managers may oversee the computerization of patients' records and ensure the information is secure, recruit new employees, implement new technologies, facilitate changes in healthcare regulations and help evolve new models of patient care.

DeVry University's Healthcare Management specialization has a strong emphasis on health services, coupled with fundamental business and management courses designed to help you adapt and succeed when faced with ever changing workplace challenges. Specializing in Healthcare Management at DeVry University can support and advance your commitment to serving others with the knowledge and ability to be effective in a variety of roles.

Our Healthcare Management specialization can help prepare you to play an important role in areas such as healthcare policy, managed care, insurance, information systems or finance.

Graduates of DeVry University's Healthcare Administration degree program with a specialization in Healthcare Management may consider careers including, but not limited to, the following:

- Administrative Service Manager
- Admissions Coordinator
- Assistant Administrator
- Business Office Supervisor
- Clinical Administrative Coordinator
- Health Services Manager
- Healthcare Administrators
- Medical Office Manager
- Medical Services Manager
- Office Manager – Home Care

Employment in some occupations may require years of relevant experience.

DeVry's Healthcare Administration program is not designed to prepare graduates for nursing home, assisted living facility, long-term care or home care administrator positions. Students interested in practicing a regulated profession must contact the appropriate state regulatory agency for certification or licensure requirements. For instance, in Virginia certain educational and training requirements must be satisfied for initial nursing home administrator licensure or initial assisted living facility administrator licensure; DeVry's program does not satisfy the educational and/or training requirements.
