Completion rate for first-time, full-time students (for both DeVry University and all U.S. Colleges) is the U.S. Department of Education's measure of the percentage of students who are new to college and entered full-time in the Fall of 2014, who complete the program within 150% of program length (for a bachelor's degree program, normal time is usually 4 years, and 150% of normal time is 6 years).

Completion rate for all new full-time "DeVry University students" is defined similarly to the "first-time, full-time" completion rate above except it includes those who previously attended another institution. DeVry University calculates this measure based on DeVry University data for the program from the Fall 2014 cohort.

Loan Default Rate is the percentage of borrowers (4 year U.S. Colleges and DeVry University) entering repayment in 2018 who defaulted on their loans within 3 years. Provided by the U.S. Department of Education and can be found at: <http://www2.ed.gov/offices/OSFAP/defaultmanagement/cdr.html>. In addition, a Loan Repayment Rate for former DeVry University students as well as those who attended other institutions can be found on the College Scorecard: <https://collegescorecard.ed.gov/>.
