

# Bachelor's Degree Program MANAGEMENT

Specialization: **Accounting**

## ABOUT THIS DEGREE PROGRAM

The bachelor's degree in Management at DeVry University can help you develop the management skills needed to work in many business areas and industries, such as accounting, project management, entrepreneurship, marketing, and human resources. If you're currently employed, this can be a great way to further develop your management skills.

Our Management degree program is designed to prepare students to meet the challenges of a high-tech, global marketplace by bringing the real world into the classroom. Through experiential projects, you can develop the skills and business acumen needed in today's business world.

This program is designed to accommodate students with a wide range of experiences, including those with little or no prior college education or work experience. If you have prior work or educational experience, you may also want to consider our Technical Management degree program which is available with many of the same specializations.

Through our TechPath approach, we've put technology at the core of our programs in business, tech and health – including this program. Every TechPath class you take revolves around a unique learning rubric developed at DeVry. We call it People-Process-Data-Devices or P2D2. You'll gain real skills in collaboration, be able to adapt to new structures, and be comfortable working with data and a wide spectrum of tech-forward tools. P2D2 is a key component of what makes TechPath a smart, new way of getting the knowledge you need to be ready to hit the ground running in the way successful companies work today.

# Bachelor's Degree Program | Management SPECIALIZATION: ACCOUNTING

COLLEGE OF  
BUSINESS & MANAGEMENT

## ABOUT THIS SPECIALIZATION

DeVry University's bachelor's degree program in Management can help prepare you for the workplace with a solid business foundation. Our specialization in Accounting can further focus your studies.

Our Accounting specialization curriculum will provide you with the knowledge of financial tools, tax codes and U.S. laws needed to navigate a wide range of business environments — from the private sector to government, to not-for-profit. You can also learn how to perform key tasks such as handling payroll, managing billing functions and communicating financial data.

Graduates of DeVry University's Management program with a specialization in Accounting may consider careers including, but not limited to, the following:

- Accountant
- Accounting Manager
- Administrative Assistant
- Budget Analyst
- Cost Accountant
- Environmental (Green) Accountant
- Financial Accountant
- Financial Analyst
- Financial Consultant
- Financial Planner
- Financial Reporting Analyst
- Forensic Accountant/Fraud Investigator<sup>1</sup>
- General Accountant (Government & Non-Profit Organizations)
- General Ledger Accountant
- Internal Auditor
- Payroll Manager
- Staff Accountant
- Tax Accountant

<sup>1</sup>Employment in some occupations may require years of relevant experience.

Credits and degrees earned from this institution do not automatically qualify the holder to participate in professional licensing exams to practice certain professions. Persons interested in practicing a regulated profession must contact the appropriate state agency for their field of interest. For instance, typically 150 credit hours of education are required to meet state regulatory agency education requirements for CPA licensure.

## DID YOU KNOW?

DeVry's bachelor's degree program in Accounting includes elements of Becker Professional Education's industry-leading CPA Exam prep built right in to the coursework, so you'll gain exposure to today's most relevant accounting principles.

## KNOWLEDGE AND SKILLS

**ADMINISTRATION AND MANAGEMENT** — Understand the business and management principles involved in strategic planning, resource allocation, production methods and coordination of people and resources.

**FINANCIAL ACCOUNTING** — Understand financial foundations, including asset recognition and measurement; external reporting; accounting for income taxes, pensions and other post-retirement benefits; shareholders' equity, share-based compensation and earnings per share; accounting changes and error correction; and statements of cash flow.

**AUDITING** — Examine the principles, practices and procedures used by public accountants for certifying corporate financial statements.

**ACCOUNTING INFORMATION SYSTEMS** — Learn to design, install, operate and manage an integrated, automated accounting system, including ledgers, transaction process cycles, application controls, information security requirements and business information systems integration.

**FEDERAL INCOME TAXATION** — Understand business models such as sole proprietorships and limited-partnerships, as well as the federal taxation concepts that apply to them, including income inclusions and exclusions, property transactions, capital gains and losses, and tax credits.

**FINANCIAL ADVISING** — Advise clients in areas such as the design of accounting or data processing systems, and long-range tax or estate planning.

**CRITICAL THINKING** — Use logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.

**MATHEMATICAL REASONING** — Use mathematical formulas to solve problems or project outcomes.

**JUDGMENT AND DECISION-MAKING** — Consider the relative costs and benefits of potential actions to choose the most appropriate one.
