The Master of Accounting & Financial Management (MAFM) program emphasizes coursework – taught from the practitioner’s perspective – focusing on applying concepts and skills in areas including financial accounting and reporting, managerial accounting, and financial management. The program is designed to prepare students with knowledge, skills and competencies needed in the areas of finance, financial management, financial analysis and accounting.

To tailor the MAFM program to their professional interests and goals, students select one of two emphases: Finance or CPA Exam Preparation. Students must choose an emphasis at the time of admission; successful completion of an emphasis is noted on transcripts. Total program length varies based on the number of courses taken per eight-week session.

KNOWLEDGE AND SKILLS

ACCOUNTING THEORY AND PRACTICES — Demonstrate in-depth knowledge of accounting theory and apply that knowledge to specific accounting practices in a global economy.

PROFESSIONAL COMMUNICATION — Demonstrate professional oral and written communication skills through written reports, research projects, business plans and oral presentations.

COLLABORATION — Collaborate effectively with diverse populations in multiple settings.

DECISION MAKING AND ETHICS — Conduct quantitative and qualitative business analyses, evaluate outcomes, and make recommendations for effective legal and ethical business decisions.

TECHNOLOGY — Develop analyses and solutions in support of business needs using appropriate software applications.

FINANCE EMPHASIS

This emphasis includes career-focused coursework designed to prepare you for a variety of professional fields in finance such as mergers and acquisitions, business management with financial institutions, mutual funds, securities firms, personal wealth management firms and financial planning firms, including positions involving an understanding of sale of securities.

The MAFM program with Finance emphasis requires successful completion of 39 semester-credit hours.

ACCREDITATION MATTERS

Keller’s Master of Accounting & Financial Management program has achieved voluntary specialized accounting accreditation from the Accreditation Council for Business Schools and Programs (ACBSP, www.acbsp.org), demonstrating that it has met standards of business education that promote teaching excellence.

1 Credits and degrees earned from this institution do not automatically qualify the holder to participate in professional licensing exams to practice certain professions. Persons interested in practicing a regulated profession must contact the appropriate state regulatory agency for their field of interest. For instance, typically 150 credit hours or education are required to meet state regulatory agency education requirements for CPA licensure.

2 Employment in this occupation may require years of relevant experience.
