ABOUT THIS PROGRAM

IS THIS PROGRAM FOR YOU?
If you like to manage communications technology projects to reduce costs and improve operational efficiency, this may be the program for you.

A PROGRAM TO FUEL YOUR FUTURE
This program provides perspectives on managerial decision-making and managing an enterprise in a technological environment. It also focuses on aspects of communications technologies that enable students to understand and evaluate technology applications and alternatives employed in business and industry.

When a student chooses to pursue the project management concentration, this program helps students develop the knowledge and skills needed to plan and direct technical projects such as installing and upgrading networks, deploying security measures and conducting user training. Students will learn to create and execute effective project plans that incorporate risk analysis, cost control, performance objectives and procurement management to lead successful IT and networking projects.

CAREER OPPORTUNITIES
Graduates of DeVry’s Network and Communications Management master’s degree program with a concentration in Project Management may consider, but are not limited to, careers such as the following:
• Network and Computer Systems Administrator
• Computer Network Support Specialist
