ABOUT THIS DEGREE PROGRAM

The Master of Business Administration program (Master of Business Administration in Management program in New York) blends management theory with real-world applications, emphasizing practical skills and concepts businesses demand from management professionals. Providing a comprehensive business education, the program is designed to enable students to develop management expertise and advance their knowledge and skills in areas such as corporate management, directing cross-disciplinary endeavors and integrating functions across the business enterprise.

MARKETING CONCENTRATION

Staying competitive in today's dynamic business world means staying current with the latest developments in marketing. By taking advantage of our degree program, you can explore how marketing works within organizations and learn to develop and direct sound marketing plans for today's evolving economy, integrating ethical and international considerations. Specifically, you can customize your MBA with a concentration in Marketing by focusing on a variety of pertinent topics, including market segmentation, targeting, positioning and research, pricing, channels of distribution, sales management, and advertising and marketing budgets.

Graduates of this program may consider career fields including but not limited to, the following:
• Advertising
• Brand Management
• Digital Marketing
• Industrial Buying
• Product Distribution
• Product Management
• Promotion and Public Relations
• Sales
• Social Media Marketing
• Market Research Analysis and Management

KNOWLEDGE AND SKILLS

MANAGEMENT THEORY AND PRACTICES — Demonstrate in-depth knowledge of enterprise-wide functions relevant in the global economy.

PROFESSIONAL COMMUNICATION — Demonstrate professional oral and written communication skills through written reports, research projects, business plans and oral presentations.

COLLABORATION — Collaborate effectively with diverse populations in multiple settings.

PROBLEM SOLVING — Analyze information to solve business problems through comprehensive research and use of appropriate technologies.

TECHNOLOGY — Apply analytical tools and application to develop analyses and solutions to address the needs of global stakeholders.
