ABOUT THIS DEGREE PROGRAM

The way we consume information and entertainment is constantly changing. Electronic media interact with traditional media like television and print, to provide richer and more customized user experiences. Streaming videos, apps, games and social networks deliver content in unique ways based on how, when and where we interact with them. A bachelor's degree in Multimedia Design and Development from DeVry University can help you understand both the technical and the creative aspects of content creation and delivery in the digital age.

Our Multimedia Design and Development degree program allows you to select a specialization that will focus your education on your specific goals.

Specializations offered within the Multimedia Design and Development degree program:

- Graphic and Multimedia Design
- Web Design and Development

Core-Degree Coursework

Business and Computing
- BUSN115 Introduction to Business and Technology
- COMP100 Computer Applications for Business with Lab

Multimedia Core
- MDD310 Multimedia Standards
- MDD340 Business of Graphics
- MDD410 Emerging Multimedia Technologies
- WGD201 Visual Design Fundamentals
- WGD205 Advanced Design and Rapid Visualization
- WGD210 Digital Imaging Fundamentals
- WGD229 Information Design
- WGD232 Web Design
- WGD238 Web Animation
- WGD242 Advanced Web Design
- WGD251 Responsive Web Design
- WGD260 Media Portfolio

Senior Project
- MDD460 Senior Project I
- MDD461 Senior Project II

Note: Students enrolled at a New Jersey location must take an additional six semester-credit hours of general education coursework from among the following course areas: communication skills, humanities, social sciences, mathematics and natural sciences. Courses selected in humanities or social sciences should be upper-division coursework (DeVry courses are numbered 300-499).

Courses in blue are part of the DeVry Tech Path

GENERAL EDUCATION COURSEWORK

Communication Skills
- ENGL112 Composition
- ENGL115 Advanced Composition
- ENGL216 Technical Writing
- SPCH275 Public Speaking

Humanities
- HUMN403 Introduction to the Humanities
- ETHC445 Principles of Ethics
- LAS432 Technology, Society, and Culture

Social Sciences
- ECON312 Principles of Economics
- SOCS185 Culture and Society
- SOCS225 Environmental Sociology

Mathematics and Natural Sciences
- MATH114 Algebra for College Students
- MATH221 Statistics for Decision-Making
- SCI228 Nutrition, Health and Wellness with Lab

Personal and Professional Development
- CARD408 Career Development
- COLL148 Critical Thinking and Problem-Solving

Note: Students enrolled at a New Jersey location take ENGL108 in lieu of this course.

2 Students enrolled at a New Jersey location may take SCI200 to fulfill this requirement.

3 Students enrolled at a Pennsylvania location take ENGL112 in lieu of this course.

Through our TechPath approach, we’ve put technology at the core of our programs in business, tech and health – including this program. Every TechPath class you take revolves around a unique learning rubric developed at DeVry. We call it People-Process-Data-Devices or P2D2. You’ll gain real skills in collaboration, be able to adapt to new structures, and be comfortable working with data and a wide spectrum of tech-forward tools. P2D2 is a key component of what makes TechPath a smart, new way of getting the knowledge you need to be ready to hit the ground running in the way successful companies work today.
DeVry University’s bachelor's degree in Multimedia Design and Development can provide you with a solid foundation in design functionality and digital creation. Our specialization in Graphic and Multimedia Design can further prepare you to reach your individual goals.

Graphic and multimedia designers create the look for websites, mobile applications and online advertising. They design illustrations and animations for the digital space. They deliver functional, educational and entertaining online experiences that users return to again and again. Their combination of artistic and coding skills is used in marketing departments, advertising agencies and animation studios.

With a specialization in Graphic and Multimedia Design from DeVry University, you can develop your passion for illustration, animation or multimedia design into a career as a key part of a design and development team. You can master the visual design software that is used across the industry, understand the nuances of designing for different media types and learn to translate user needs into functionality. In addition, you can sharpen your creative skills in the digital environment, including such skills as 3-D modeling, web video creation and responsive web design.

Graduates of DeVry University’s Multimedia Design and Development program with a specialization in Graphic and Multimedia Design may consider careers including, but not limited to, the following:

- Multimedia Artist/Animator
- Multimedia Designer
- Multimedia Producer
- Multimedia Specialist
- Web Animator
- Web/Graphic Designer

### Knowledge and Skills

**WEB TECHNOLOGY** — Understand current web technologies and web development practices.

**CONTENT CREATION AND MANAGEMENT** — Write, design or edit web page content, or direct others producing content.

**CODE REVIEW** — Learn to evaluate code to ensure that it is accessible, valid and properly structured; meets industry standards; and is compatible with browsers, devices or operating systems.

**DATABASE METHODOLOGY** — Study concepts and methods fundamental to database development and use, including data analysis, modeling and structured query language (SQL). Explore the basic functions and features of a database management system (DBMS).

**WEB DEVELOPMENT** — Build and maintain websites.

**SOFTWARE AND PROGRAMMING PROFICIENCY** — Understand and be able to use web programming languages, such as HTML5 and CSS3 as well as industry-specific software, such as Adobe Creative Cloud®.

**MULTIMEDIA INTEGRATION** — Use multimedia authoring tools and techniques to create interactive websites and dynamic web applications by integrating assets such as movie clips, sound effects, images and animation.

**WEBSITE DEVELOPMENT** — Learn to use cascading style sheets (CSS), databases, and code to improve the operation of front- and back-end website development.

### Program-Specific Coursework

- **GMD311** Web Video Fundamentals with Lab
- **GMD341** Advanced Imaging with Lab
- **GMD371** Advanced Illustration with Lab
- **GMD411** 3D Model Design and Construction with Lab
- **GMD451** Animation with Lab

**DID YOU KNOW?**

DeVry’s curriculum is designed with concepts from the Adobe Certification Exam. Earn your bachelor’s degree and prepare to sit for the Adobe Certified Associate Exam in Photoshop, Illustrator, Flash Professional, InDesign or Dreamweaver. Certification signifies an industry standard of achievement.
