Bachelor's Degree Program
MULTIMEDIA DESIGN & DEVELOPMENT
Specialization: Graphic and Multimedia Design

ABOUT THIS DEGREE PROGRAM
The way we consume information and entertainment is constantly changing. Electronic media interact with traditional media like television and print, to provide richer and more customized user experiences. Streaming videos, apps, games and social networks deliver content in unique ways based on how, when and where we interact with them. A bachelor's degree in Multimedia Design and Development from DeVry University can help you understand both the technical and the creative aspects of content creation and delivery in the digital age.

Our Multimedia Design and Development degree program allows you to select a specialization that will focus your education on your specific goals.

Specializations offered within the Multimedia Design and Development degree program:
- Graphic and Multimedia Design
- Web Design and Development

Through our TechPath approach, we’ve put technology at the core of our programs in business, tech and health – including this program. Every TechPath class you take revolves around a unique learning rubric developed at DeVry. We call it People-Process-Data-Devices or P2D2. You’ll gain real skills in collaboration, be able to adapt to new structures, and be comfortable working with data and a wide spectrum of tech-forward tools. P2D2 is a key component of what makes TechPath a smart, new way of getting the knowledge you need to be ready to hit the ground running in the way successful companies work today.

GENERAL EDUCATION COURSEWORK

Communication Skills
ENGL112 Composition
ENGL135 Advanced Composition
ENGL216 Technical Writing
SPCH275 Public Speaking

Humanities
HUMN303 Introduction to the Humanities
ETHC445 Principles of Ethics
LAS432 Technology, Society, and Culture

Social Sciences
ECON312 Principles of Economics
SOCIS185 Culture and Society
SOCIS285 Environmental Sociology

Mathematics and Natural Sciences
MATH114 Algebra for College Students
MATH221 Statistics for Decision-Making
SCI228 Nutrition, Health and Wellness with Lab

Personal and Professional Development
CARD405 Career Development
COLL148 Critical Thinking and Problem-Solving

1 Students enrolled at a New Jersey location take ENGL108 in lieu of this course.
2 Students enrolled at a Nevada location must take POLI332 in lieu of this requirement.
3 Students enrolled at a New Jersey location may take SCI200 to fulfill this requirement.

CORE-DEGREE COURSEWORK

Business and Computing
BUSN115 Introduction to Business and Technology
COMPI00 Computer Applications for Business with Lab

Multimedia Core
MDD310 Multimedia Standards
MDD340 Business of Graphics
MDD410 Emerging Multimedia Technologies
WGD201 Visual Design Fundamentals
WGD205 Advanced Design and Rapid Visualization
WGD210 Digital Imaging Fundamentals
WGD229 Information Design
WGD232 Web Design
WGD238 Web Animation
WGD242 Advanced Web Design
WGD251 Responsive Web Design
WGD260 Media Portfolio

Senior Project
MDD460 Senior Project I
MDD461 Senior Project II

Programs, course requirements and availability vary by location. Some courses may be available online only. All students enrolled in site-based programs will be required to take some coursework online and, for some programs and locations, a substantial portion of the program may be required to be completed online. DeVry’s academic catalog, available via devry.edu/catalogs, contains the most current and detailed program information, including admission, progression and graduation requirements. Information contained herein is effective as of date of publishing.
Bachelor’s Degree Program | Multimedia Design & Development

SPECIALIZATION: GRAPHIC AND MULTIMEDIA DESIGN

ABOUT THIS SPECIALIZATION

DeVry University’s bachelor’s degree in Multimedia Design and Development can provide you with a solid foundation in design functionality and digital creation. Our specialization in Graphic and Multimedia Design can further prepare you to reach your individual goals.

Graphic and multimedia designers create the look for websites, mobile applications and online advertising. They design illustrations and animations for the digital space. They deliver functional, educational and entertaining online experiences that users return to again and again. Their combination of artistic and coding skills is used in marketing departments, advertising agencies and animation studios.

With a specialization in Graphic and Multimedia Design from DeVry University, you can develop your passion for illustration, animation or multimedia design into a career as a key part of a design and development team. You can master the visual design software that is used across the industry, understand the nuances of designing for different media types and learn to translate user needs into functionality. In addition, you can sharpen your creative skills in the digital environment, including such skills as 3-D modeling, web video creation and responsive web design.

Graduates of DeVry University’s Multimedia Design and Development program with a specialization in Graphic and Multimedia Design may consider careers including, but not limited to, the following:

- Multimedia Artist/Animator
- Multimedia Designer
- Multimedia Producer
- Multimedia Specialist
- Web Animator
- Web/Graphic Designer

WEB TECHNOLOGY — Understand current web technologies and web development practices.

CONTENT CREATION AND MANAGEMENT — Write, design or edit web page content, or direct others producing content.

CODE REVIEW — Learn to evaluate code to ensure that it is accessible, valid and properly structured; meets industry standards; and is compatible with browsers, devices or operating systems.

DATABASE METHODOLOGY — Study concepts and methods fundamental to database development and use, including data analysis, modeling and structured query language (SQL). Explore the basic functions and features of a database management system (DBMS).

WEB DEVELOPMENT — Build and maintain websites.

SOFTWARE AND PROGRAMMING PROFICIENCY — Understand and be able to use web programming languages, such as HTML5 and CSS3 as well as industry-specific software, such as Adobe Creative Cloud®.

MULTIMEDIA INTEGRATION — Use multimedia authoring tools and techniques to create interactive websites and dynamic web applications by integrating assets such as movie clips, sound effects, images and animation.

WEBSITE DEVELOPMENT — Learn to use cascading style sheets (CSS), databases, and code to improve the operation of front- and back-end website development.
