ABOUT THIS DEGREE PROGRAM

A FOUNDATION IN BUSINESS
This program features a series of essential Business Core courses to help build interdisciplinary skills critical to workplace success. These courses introduce students to key disciplines that support business careers and cover concepts related to general business principles, including accounting, marketing, management and the analytic skills that inform business decision-making.

The Business Core coursework introduces students to contemporary workplace applications. In each course, the learning experience is enhanced through activities that help students apply the course material, while shaping future education and career choices.

A PROGRAM TO FUEL YOUR FUTURE
In this program, you’ll gain insight into healthcare delivery models and learn to analyze and manage healthcare data. You’ll work with current laws and procedures to ensure compliance, and apply methods and standards used for medical records management, health information protection and patient privacy. Our goal in this program is to prepare you with knowledge you can apply across the U.S. healthcare delivery system, and skills you can use to address tasks and challenges in the workplace, today and in the future.

IS THIS PROGRAM FOR YOU?
Do you have an interest in working with health information? Then this may be the right for you.

CAREER OPPORTUNITIES
Graduates of DeVry University’s Technical Management program with a specialization in Health Information Management may consider, but are not limited to, the following careers:

- Compliance Auditor
