Bachelor's Degree Program

TECHNICAL MANAGEMENT

Specialization: Health Services Management

ABOUT THIS DEGREE PROGRAM

For those with prior college education or professional experience, the bachelor's degree completion program in Technical Management at DeVry University can help you develop the management skills needed to work in many business areas and industries, such as accounting, project management, entrepreneurship, marketing, and human resources. With previously earned qualifying college credits, you may be able to earn your bachelor's degree in less time.

Our Technical Management degree program is designed to prepare students to meet the challenges of a high-tech, global marketplace by bringing the real world into the classroom. Through experiential projects, you can develop the skills and business acumen needed in today's business world.

If you have prior work or educational experience, you may also want to consider our Management degree program, which is available with many of the same specializations.

Through our TechPath approach, we've put technology at the core of our programs in business, tech and health — including this program. Every TechPath class you take revolves around a unique learning rubric developed at DeVry. We call it People-Process-Data-Devices or P2D2. You'll gain real skills in collaboration, be able to adapt to new structures, and be comfortable working with data and a wide spectrum of tech-forward tools. P2D2 is a key component of what makes TechPath a smart, new way of getting the knowledge you need to be ready to hit the ground running in the way successful companies work today.

Programs, course requirements and availability vary by location. Some courses may be available online only. All students enrolled in site-based programs will be required to take some coursework online and, for some programs and locations, a substantial portion of the program may be required to be completed online. DeVry's academic catalog, available via devry.edu/catalogs, contains the most current and detailed program information, including admission, progression and graduation requirements. Information contained herein is effective as of date of publishing.
ABOUT THIS SPECIALIZATION

DeVry University’s bachelor’s degree program in Technical Management can help you prepare you for the workplace with a solid business foundation. Our specialization in Health Services Management can further focus your studies. The Health Services Management specialization at DeVry University can help you to understand the political, social, cultural, economic and technical influences that have shaped our healthcare system today. The areas of health services management range from patient records management and insurance claims and billing, to healthcare financing.

As a graduate, you may manage operations in a specific healthcare department, or you may be a generalist working across an entire hospital or healthcare system. You may perform tasks such as: developing reports and budgets, or selecting and implementing systems for billing, patient records and other data.

Graduates of DeVry University’s Technical Management program with a specialization in Health Services Management may consider careers including, but not limited to, the following:

- Medical/Health Services Manager
- Patient Accounting and Billing Systems Manager
- Patient Account Specialist
- Social and Community Service Manager
- Medical Office Supervisor
- Health Services Information Systems Administrator
- Medical Computer Salesperson
- Medical Office Administrator
- Managed Care Coordinator
- Social Services Manager
- Medical Office Assistant
- Manager of Provider Networks
- Medical Computer Salesperson
- Manager of Provider Networks
- Medical Office Supervisor

Employment in some occupations may require years of relevant experience.

The University’s Technical Management program with a specialization in Health Services Management is not designed to prepare graduates for nursing home, assisted living facility, long-term care or home care administrator positions. Students interested in practicing a regulated profession must contact the appropriate state regulatory agency for certification or licensure requirements. For instance, in Virginia certain educational and training requirements must be satisfied for initial nursing home administrator licensure or initial assisted living facility administrator licensure; DeVry’s program does not satisfy the educational and/or training requirements.

DID YOU KNOW?

DeVry University’s Bachelor of Science in Technical Management program has achieved voluntary accreditation from the Accreditation Council for Business Schools and Programs (ACBSP) www.acbsp.org, demonstrating that it has met the standards of business education that promote teaching excellence.
