ABOUT THIS DEGREE PROGRAM

For those with prior college education or professional experience, the bachelor's degree completion program in Technical Management at DeVry University can help you develop the management skills needed to work in many business areas and industries, such as accounting, project management, entrepreneurship, marketing, and human resources. With previously earned qualifying college credits, you may be able to earn your bachelor's degree in less time.

Our Technical Management degree program is designed to prepare students to meet the challenges of a high-tech, global marketplace by bringing the real world into the classroom. Through experiential projects, you can develop the skills and business acumen needed in today's business world.

If you have prior work or educational experience, you may also want to consider our Management degree program, which is available with many of the same specializations.

Through our TechPath approach, we've put technology at the core of our programs in business, tech and health – including this program. Every TechPath class you take revolves around a unique learning rubric developed at DeVry. We call it People-Process-Data-Devices or P2D2. You'll gain real skills in collaboration, be able to adapt to new structures, and be comfortable working with data and a wide spectrum of tech-forward tools. P2D2 is a key component of what makes TechPath a smart, new way of getting the knowledge you need to be ready to hit the ground running in the way successful companies work today.

GENERAL EDUCATION COURSEWORK

Communication Skills

- ENGL112³** Composition
- ENGL135** Advanced Composition

ABOUT THIS SPECIALIZATION

DeVry University's bachelor's degree program in Technical Management helps prepare you for the workplace with a solid business foundation. Our specialization in Project Management can further focus your studies.

Project managers guide a project from planning to completion by facilitating ideas, resources and information from team members and outside resources. In this role, you may manage a team of developers, builders, designers, manufacturers or other professionals in order to create final products that may range from software to consumer goods. Our Project Management specialization can help you learn key tasks such as setting budgets and timelines, providing estimates, acquiring outside resources, and identifying and evaluating project goals and deliverables.

Graduates of DeVry University's Technical Management program with a specialization in Project Management may consider careers including, but not limited to, the following:

- Construction Manager
- Cost Estimator
- General and Operations Manager
- Management Consultant
- Organizational Change Manager
- Procurement Manager
- Project Developer
- Project Manager
- Project Quality Manager
- Project Specialist
- Project Team Leader

Employment in some occupations may require years of relevant experience.

DID YOU KNOW?

DeVry University's Bachelor of Science in Technical Management program has achieved voluntary accreditation from the Accreditation Council for Business Schools and Programs (ACBSP) www.acbsp.org, demonstrating that it has met the standards of business education that promote teaching excellence.
